IGARSS 2020 is the world’s premier symposium on geoscience, remote sensing, and related topics. This Virtual IGARSS conference is a leading event in remote sensing and provides an ideal forum for obtaining up-to-date information about the latest developments, exchanging ideas, identifying future trends, and networking with the international geoscience and remote sensing community.

Thousands of attendees are expected from around the world, and this is an excellent opportunity for companies to showcase their support and increase brand awareness among the geoscience community.
IGARSS brings together leaders from industry and academia in a forum on technology for geoscience and Remote Sensing. This virtual conference offers direct access to cutting-edge research and innovations. Through keynote addresses, technical sessions, poster presentations, and panel-driven discussions, prime business and technology leaders from over 60 different countries can share their ideas and research. A world-wide vision can be found by participating and attending IGARSS Virtual Conference 2020.
